## ABOUT ME

I am a web developer with a technical degree in software programming and over 1 year of experience as a frontend developer. Currently pursuing a degree in Systems Engineering, I have hands-on experience with technologies like **Next.js**, **React**, **HTML**, **CSS**, and **JavaScript**, specializing in building reusable components and optimizing user interfaces with **Material-UI**, **SCSS**. Additionally, I have implemented **APIs** to enhance communication between frontend and backend, and performed end-to-end testing with **Playwright**. I am proficient with tools such as **Postman**, **Git**, and **GitHub** for version control and continuous integration, always focused on code efficiency and quality.

## EXPERIENCE

NOV 2023-ABRIL 2024

### Boombit

- Built pixel perfect application according to the figma design.
- Content maintenance and updates.
- Debugging and fixing bugs in code (React, Next.js, JavaScript).
- Created Custom Components, using Syled Components as building blocks.
- Register and monitor Adobe Analytics events.

ABRIL 2024 – Actualidad

### Vokal

- Used Zustand as state management on the application.
- Development of reusable components in Next.js with Material-UI.
- Document the new components using Storybook
- End-to-end testing with Playwright, reducing production errors.
- Team collaboration using Git and GitHub for version control.
- Deploy an application on PROD to schedule medical appointments.
- Techs: NextJS, Typescript, Tailwind CSS, Zustand, Storybook, Playwright, Vitest, Zod
